

SPAR-DUOQ-01

User manual

Wall Charger Quick Charge. Dual port: USB Type-C and TYPE A

Features:

Ports: USB – Type-C PD 20W

USB Type-A Quick Charge 3.0 18W

USB – Type-C PD state of the art technology

PD is the latest technology in device charging and offers the fastest charge time for mobile devices.

Assure a stable and fast charging.

Extended compatible supply voltage range: 100V-240V, guarantees its functionality in countries with different standards.

Protects the phone, the temperature remaining constant during charging.

Thanks to the smart chip, the charger detects the type of device connected and its charging needs.

Technical details:

Input voltage and current: 100-240V/60 Hz 0.5A

Output voltage and current:

5V/3A, 9V/2A, 12V/1.5A (QC 18W)

5V/3A, 9V/2.25A/ 12/1.67A (PD20W)

Output 2 ports charging together simultaneously: 5v/3.1A (15W)

Protection: Short circuit protection/ over-charging/ overvoltage

Size: 86 x 45 x 26mm

Material: ABS

Instructions

1. Plug the charger into your wall socket.
2. Connect one end of your charging cable to your device's charging port (smartphone, portable speaker, power bank ...)
3. Connect the other end to the USB port of the charger.
4. Unplug your device when fully charged.

Packaging content: Wall Charger Quick Charge 20W

Safety instructions

Keep away from children and pets.

Protect the product from moisture. Don't expose the device to rain, water, wetness or high humidity. Avoid the direct contact with water.

Protect the product from fire and heat sources. Don't place it in the near of the heat sources (radiators or other heat producing devices)

Disposing the product. Do not dispose the product or the other electrical and electronic components with consumers waste. Use only specialized electrical and electronic waste collection centers.
